DOVER AROUSED

Over Encroachment of the C. and O. on Her Main Street-Thoroughfare Now Useless

Spancer Hubbard, Dover's staunch old colored veteran was in Maysville yesterday and made THE PUBLIC LEDGER office his usual call. Spencer has a tale of woe about the way the C. and O. is treating property owners along the line of Second street in that village, which thoroughfare the road has practically monopolized and confiscated.

No people in the world have been so outragously bunkoed as have the fifty or more medicine in Maysvilie resulted in death this property owners on both sides of the street morning at 5 o'clock, when Arlie, the thirteen through Dover now taken up by the C. and O.'s | months old baby boy of Mr. and Mrs. Huff Ginn

A peculiar incident is that he resides on the farm where Miss Bessie Fau killed herself with carbolic acid only ten

DOVER WOMAN

Mrs. America Alexander Ferguson Appointed Kitchen and Restaurant Inepector at Cincinnati

She "Puts Dover, Mason County" on the Map as the Original "Spotless Town"

Friday's Cincinnati Times-Star. When Mrs. A. A. Ferguson, whose residence

is at the San Raphael flats, is complimented on receiving the highest average at the civil service examination held recently for the position of Cincinnati kitchen and restaurant inspector, she smiles and says that she could hardly do otherwise, coming from Kentucky's spotless town. The "spotless" city is Dover, Ky., a community of about 1,000 people, 50 miles Southeast of Cincinnati. According to Mrs. Ferguson, when she was a little girl living in the Kentucky town, long before club women had taken up civic reform and municipal housekeeping, the women of Dover, Ky., used to collect brooms and buckets, also such husbands belonging to the community as had not made their timely escape, and clean up the streets of the village. "I do not think there is a cleaner town in the world than Dover or better housekeepers anywhere. My grandnother was considered the most skillful of them all, so perhaps I have inherited an instinct for this kind of thing and that is why like it," said Mrs. Ferguson. Here are some of the questions included i

the Kitchen inspector's examination:

How can you tell when the ice box is to

What length of time may various meats be kept without spoiling?

What contagious disease would disqualify man or woman as waiter?

The new chief inspector is to be chosen from the first three names on the list and it is considered probable that Mrs. Ferguson will be selected for the position. Previous to her marriage to the son of E. A. Ferguson, founder of the Cincinnati Southern Railway, Mrs. Ferguson and her mother conducted a large private hotel in Cincinnati. Since her husband's death she has acted as housekeeper of a students' boarding house at Oxford.

The Editor of THE PUBLIC LEDGER can vouch for the statement of Mrs. Ferguson, as they were both reared in Dover. Mrs. John S. Goff the grandmother of Mrs. America A. Ferguson, who died only a few years ago, was a foe to material dirt in every form. Even her back poarch shined like a mahogany table. She was so scrupulously clean about her home that one feared to enter lest he leave some variety of dirt objectionable to old lady Goff. And her daughter, Mrs. James Goff now keeping the same old home is as neat and particular as was her mother.

Mrs. America Alexander Ferguson, spoken of by the Times-Star, is the only daughter of the late A. J. W. Alexander, in his day one of the wealthjest sportsmen in the Ohio Valley. THE PUBLIC LEDGER wishes Mrs. Ferguson God speed in her wor' of cleaning up Cincia-

Dr. H. Bolte of Sapulpa, Okla., Is Still Waiting.

NEW YORK.—Dr. H. Bolte of Sapul-pa, Okla., may find some satisfaction in a notice sent to him the other day by Deputy Police Commissioner Dougherty to the effect that Thomas Brown is under arrest here and will be held for Dr. Bolte's identification. Mr. Brown said his arrest was an outrage and that he never swindled a dentist or anybody else out of \$1,500 by a variation of the good old wire tapping game.

This was the tale of the dentist: He came from Oklahoma to New York to get to Europe. He had over \$500 in cash and a check for \$1,000. He met a nice fellow in a Broadway bar room who called himself Walter Sims and said he was a planter from Jackson, Miss. Sims introduced the doctor to J. W. Walsh, a "millionaire grain speculator of Buffalo." The two took Dr. Bolte to a "club" at 128 West Forty-fifth street, where one might bet on the races.

besieged city. The Indian mutiny was in full swing. Early in 1857 the mysterious chapatis of unleavened bread had been passed from village to village, together with the sinister message, "Everything will become red." Misled by treacherous and designing native princes, the Sepoys had turned upon the English.

that aid might be summoned to the

Fresh from Hongkong after the news of the outbreak at Meerut, H. M. S. Shannon disembarked a body of pluejackets at Calcutta and all haste was made to the relief of the English garrison at Gawnpore. Sir William Peel, who had gained distinction and -a V. C. during the Crimean war, was in command of the bluejackets; and among the latter was one William Hall, a negro captain of the foretop who had seen service in the Crimea.

Pulling their 24-pounders over the rough roads, the naval brigade joined Havelock's relieving column, and every nerve was strained to reach Cawnpore in time, for it was known that about six hundred Europeans were cooped up in the city, including many English women and children.

Cawnpore was reached upon the 16th of July, and a crushing blow dealt the bloodthirsty hosts of the unspeakable Nana Sahib. But the effort was wasted in the main, for scarcely twenty-four hours before, while Havelock's column was within a day's march, the massacre which startled the civilized world had been perpetrated. Four hundred-odd men had surrendered, owing to the blunder of a senile and weak-kneed general, and more than two hundred women and children had been left to the mercies of the flendish foe under Nana Sahib.

The men of the garrison had been cruelly decoyed to their deaths-wantonly shot down in cold blood after the surrender, several weeks before the arrival of General Havelock and his men. The women and children had been triumphantly inspected by Nana Sahib and then locked up in a Peel. gloomy chamber. There they were kept for some time, during which their imbers were swelled by the arrival but the near approach of the avenging forces hastened his action, and on

> The house here illustrated is built on a plan that many might say belongs to the "old school;" but it has a good deal to recommend it. Those who appreciate plenty of light and air like to have rooms built on this plan, because they can have all the windows they want, and have them so placed that sunlight can penetrate into every room.

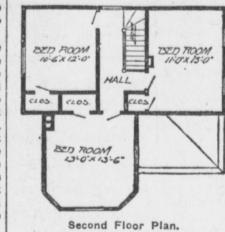

The first houses, built when the country was new to white folks, were square or nearly so. Then, as more room was needed, they were extended in one direction, keeping generally to one room in width. When the limit in this form was reached, some bright, intelligent fellow branched off at right angles, and built a room on the side of his house. This must have been considered a great innovation, as well as a great invention; and so it was, for it has been handed down from one generation to the next, and we composed mostly of impulsive Irishstill find the idea worth adopting.

There is no record of the original house built on this plan; so we do not know whether it had an upstairs or not; but there is a good second story to this house, and there is also a good cellar-another feature that the origipoys wavered, then hastily limbered nal architect didn't understand. It is to take advantage of such conditions up their guns and retired. This gave necessary to "hike" back to those the mounted troops an opportunity to "good old times" when luxuries approached closely to what we call privations, in order to appreciate what we now have.

We could live as the early pioneers did, in one-room houses built with an guard, the 9th Lancers led the purax; but we should rather not do it suit. When within three hundred in the winter time. Mr. Curtis shows how the band of the Titanic that it has the attitude of the public has changed been translated into French and is be in the last ten years, since the great ing sung by itinerant musicians.

SYMPATHY, BUT NO APOLOGY

Lawyer's Tart Remarks Not Greatly Softened by His Rejoinder When "Called Down."

Andrew Lipscomb, who practices law before the courts of Maryland, was trying his first case before a judge named Merrick. Lipscomb, wishing to impress the judge, was, in the language of the bar, right lippy in his remarks to the eminent gentleman. Finally, Merrick lost patience and exclaimed:

"Sit down! Sit down, sir! If you don't sit down I'll fine you for contempt of court."

Lipscomb sat down, but turned to a young lawyer beside him, and re-

"That's the crustiest, most opinion-

"How sad!" said Lipscomb, smooth-

205 Kanter Ave., Detroit, Mich .-"Some time last summer I was taken with eczema. It began in my hair first with red blotches, then scaly, spreading to my face. The blotches were red on my face, dry and scaly, not large; on my scalp they were larger, some scabby. They came on my hands. The inside of my hands were all little lumps as though full of shot about one-sixteenth of an inch under the skin. Then they went to the outside and between and all over my fingers. It also began on the bottoms of my feet and the calves of my legs, and itch, oh, my! I never had anything like it and hope I never will again. The itching was terrible. My

hands got so I could scarcely work. "I tried different eczema ointments but without results. I also took medicine for it but it did no good. I sam to get this house for that amount of the advertisement for a *sample of money; but it can be done in localities Cuticura Ointment and Soap and sent for one. They did me so much good can be had at reasonable prices, and I bought some more, using them as per directions, and in about three weeks I was well again. Cuticura Soap and Ointment entirely cured me.' (Signed) Benj. Passage, Apr. 8, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L. Boston."

REPUBLICAN TICKET.

FOR PRESIDENT, WILLIAM HOWARD ATAFT. FOR VICE PRESIDENT, JAMES S. SHERMAN,

LYING AGAIN ILLEGAL.

When Congress, in 1906, passed the Food and Drugs Act, colloquially known as the Pure Food Law," it declared in that act that

aring should be accounted misbranded

"the package or label of which shall bear any statement * * * which shall be false or misleading in any particular * * *"

for nearly half a decade after the passage of this law it was generally believed, and the courts held, that it was illegal to make any statement on the label of a food or drug that was "false or misleading in any particular." When the point was raised before the Supreme Court, however, that august body declaredby a majority of five to three--that the phrase "false or misleading in any particular" meant false or misleading in certain particulars, towit as applied only to the composition or sources of origin of the products. This decision, naturally, gave general cause for rejoicing among that swindling brotherhood which robs the sick and defrauds the mortally ill by selling worthless "cures" for cancer, consumption, etc. It is more than a year since the Supreme Court's decision so seriously crippled one of the most beneficent pieces of legislation of modern times. But Congress has again put up the bars and the President has signed Congressman Shirley's bill which so amends the Food and Drugs Act as to restore the broader meaning originally attributed to that piece of legislation. Mr. Shirley's amendment consists, essentially, in the addition of a third paragraph to Section 8 of the Food and Drugs Act. This paragraph reads:

"If its package or label shall bear or contain ly statement, design, or device regarding the rative or therapeutic effect of such article, or y of the ingredients or substances contained rein, which is false and fraudulent."

ere can be no mistaking the intent of this dment, says The Journal of the American edical Association. It says to the "patentredicine" faker in plain and unequivocal erms: "Thou shalt not lie."

Dyspeptic Philosophy

Many a black sheep masquerades as spring lamb.

A love match must be one where there is no money to burn.

No man knows his own strength unless he realizes his own weakness.

The man with a bad temper isn't any more amiable when he loses it.

The man who can't look you in the eye will to you over the telephone.

he most surprising thing in life is the fact the things that don't seem possible happen

STIMSON SKINS THE BULL MOOSE.

"I was Theodore Roosevelt's candidate for Governor of New York two years ago, and Roosevelt and I have been very close political and personal friends, but I am opposed to Roosevelt's conduct at present. There is no justification or reason or need for Theodore Roosevelt in this day and generation," said Secretary of War Henry L. Stimson, in a general discussion of political conditions at San Francisco.

"Theodore Roosevelt has done more harm to the advancement of pure political and better governmental conditions than any other one man or combination of men, that has intermeddled in political and governmental affairs in a great many years.

"I am a Republican because the Republican party is the party of progress, and I am progressive. I am supporting President Taft because he is the real progressive of the Republican party.

"Under the leadership of such progressives as President Taft and the men who have remained loyal to him after a generation of fighting for better and higher things in the party and in the government, the people at large are promised the very best results obtainable from our form of government."

Secretary Stimson declared that 20 years ago, when Roosevelt went into politics for the

"He took every advantage of these conditions and played the game of politics according to the rules laid down by Tom Platt,' continued the Secretary.

the revised rules of Ben Odell. In those days and since until only a few months ago Roosevelt was the beneficiary of the rotten system as carried on by the old guard and black horse

GETTING BACK TO NORMAL.

The one unmistakeable political tendency at present is the country-wide recognition of the rare merits of President Taft. A period of normal reflection has set in. The shout has had its day and the intelligent inquiry, the frank recognition of facts have arrived.

Republics are not ungrateful. Sometimes they can be temporarily misled by political tion brought fourth from Archibald S. zealots or sophists; but in the end they fall back upon the safe entrenchments of practical common sense. They accept results and deeds; they suspect theories and extravagant promises.

The absence of frank and definite criticism of President Taft would be interesting but for the fact that there is no foundation for such criticism. His record has been a remarkably that yields at least 2,000 barrels of creditable one. Accepting the responsibilities and burdens of an office which had been attuned to the caprices and intemperate practices of his predecessor, he began the difficult task of performing his duties in the way which seemed to him the right way.

He met the stratagems of his political enemies-Democratic statesman, chiefly, but also a few Republicans who were of the Roosevelt school of office-holders-and overcame them by methods which have been both commendable and consistent.

No man who ever went to the White House confronted more trying tasks; no man ever performed them with greater earnestness or allegiance to principle.

His duties have been performed with sanity and graciousness; with dignity and judiciousand it has been found to be ineffective. The country is declaring that it has had enough of spellbinding and that it wants to get back to business. That is why Taft stock is up and going higher. That is why the theorists and the impostors will be sent to the rear when the voters speak in November.-St. Louis Times.

GASOLINE

Squeezed From Natural Gas at the Rate of 2,000 Barrels a Day

Some time ago The Cincinnati Enquirer printed a news item to the effect that a process had been discovered by which gasoline can be squeezed out of natural gas before it is sold for consumption. The article in ques-White, then President of the Columbia Gas and Electric Company, a strong denial that that company was engaged in any such squeezing operation, and that it was not a successful commercial proposition, in so far as he then knew.

The Scientific American now comes along with an elaborate explanation of the new process, which it is said, is being operated on a commercial basis gasoline a day. The article, however, is merely a general technical statement and does not mention the names | cost him his job.

of the companies using the "recovery'

Ever since natural gas has been noticed a collection of gasoline in the pipes through which the gas flows. This led to researches to determine whether or not gasoline could not be squeezed out of natural gas as a secondary product, and John Lathrop Gray, an inventor, has completed a process making it practicable. The recovery system is operated by com-

pression and the cooling of the gases. "Natural gas gasoline" in appearance and physical characteristics is so nearly identical with the refinery product, when properly produced and treated, that it requires careful judgment to distinguish it. The new product also mixes well with kerosene or lighting oil and makes a cheap and satisfactory motor fuel. The new process will, the Scientific American says, ultimately operate as a safeguard against a prohibitive fuel cost for internal combustion purposes.

native roots and herbs, has for nearly forty years proved to be a most valua-1. See that land is well drained and as fertile as can be secured on the farm.

2. If possible ta obtain, an acre not culti vated in corn last year is most desirable. 3. If there is a fall plowed field of clover or other sod, cow peas or pasture land on the

farm, select an acre from that. III. Preparation of Seed Bed.

1. Breaking-(a) Fall breaking is best, (b.) For spring breaking turn soil not less than 8 inches and deeper if not more than an inch of elay subsoil is turned up. Better plow 12 to 16 inches deep if the subsoil permits.

2. Pulverizing .- Before planting thoroughly fine the soil as deep as possible, using disk or cutting harrow until manure is thoroughly mixed with soil. The land should be like a garden or ash pile.

IV. Seed.

Get your seed corn from the best crop that has grown in your section of country. The variety does not matter so that it is known to have high yielding qualities. (If you have trouble in getting satisfactory seed inform your County Superintendent and it will be at-

V. Planting 1. Either in hills 3 feet 8 inches each way,

or drill 18 inches, in rows 3 feet 8 inches

2. Plant 3 inches deep. 3. If corn needs thinning or replanting see

to it as early as possible. (Fry for unifo. mity.) 4. Plant as soon as suits your conditions after April 15th.

VI. Cultivation.

1. Any time from planting to four days afterward, harrow the ground smoothe with a ight harrow. (Do not harrow or roll corn after it is up if you can avoid it)

2. Cultivate every week or ten days with fine tooth cutivator, or one-horse harrow, from time corn is large enough until it tassels.

3. Keep corn free from weed. They take the moisture the soil needs. 4. If the bull-tongues are used they should

be small one. Very Important. Never work in soil when it is too wet, and

never cultivate over two inches deep. (It will to more barm than good.)

Study carefully all publications sent you, and keep a careful record of time (borses and men), material and money used on the acre. These will figure in your the end of

COPYRIGHT, ACM CLURG & CO. 1911

SYNOPSIS.

Major Lawrence, son of Judge Lawrence of Virginia, whose wife was a Lee, is sent on a perilous mission by Gen. Washington, just after the winter at Valley Forge. Disguised in a British unform Lawrence arrives within the enemy's lines. The Major attends a great fete and saves the "Lady of the Blended Rose" from mob. He later meets the girl at a brilliant ball. Trouble is started over a waltz, and Lawrence is urged by his partner, Mistress Mortimer (The Lady of the Blended Rose), to make his escape. Lawrence is detected as a spy by Captain Grant of the British Army, who agrees to a duel.

CHAPTER VI.

The One Hope. As he stopped and faced about, I as istantly halted.

"Perhaps this spot may satisfy your requirements," he said sarcastically. "Tis far enough away at least, and is not so bad."

"It will do," I replied, and threw my scarlet jacket on the grass. "Strip to the white, sir, and then we can see airly well where to strike. That's betr. On guard!"

He came at me flercely enough, confidel tof his mastery of the weapon, and, a doubt, expecting me to prove an eas, victim of his skill. . His first onslaught, a trick thrust under my guard, caused me to give back a step or two, and this small success yielded him the over-confidence I always prefer that an opponent have. I was young, agile, cool-headed, instructed since early boyhood by my father, a rather famous swordsman, in the mysteries of the game, yet I preferred that Grant should deem me a novice. With this in mind, and in order that I might better study the man's style, I remained strictly on defense, giving way slightly before the confident play of his steel, content with barely turning the noise: aside the gleaming point before it pricked me. At first he mistook this

r weakness, sneering at my parries, as he bore in with increasing recklessness.

"A club would be more in your line. I take it, Mr. Lieutenant Fortesque," he commented sarcastically, "but I'll play with you a while for practiceah! that was a lucky turn of the wrist! So you do know a trick or two? Perhaps you have a parry for that thrust as well! Ah! an inch more and I'd have pricked you--your defense is asted blood then-now I'll give you a larder nut to crack!"

I was fighting silently, with lips closed, husbanding my breath, scarcely hearing his comments. Every stroke, every thrust, gave me insight of his school, and instinctively my blade leaped forth to turn aside his point. He was a swordsman, stronger han I, and of longer reach, yet his ricks were old, and he relied more on crength than subtlety of fence. He ountered with skill, laughing and

CONCERNING GIRLS AND GOLD BAGS

The girl who likes to talk frowned and edged away from the gold mesh bag carelessly thrown down beside

"Take it away," she ordered. "It's solid one, as I can easily see, and it makes me nervous to be near it! I'm afraid of their influence! Now, I can face a German silver gold washed one without flinching; but run me up against a solid gold bag and I begin to get chills and fever. I guess it is because I am always so overpowered by the thought of several hundred dollars

tied up in such a small bit of frivolity. "Now, if I owned one-if, that is, some relative should catch me and bind and gag me and thrust a solid gold bag upon me by main force-I think I should devote the rest of my life to sheltering it and giving it the reverence which was its due. I know should waken in the night with a shriek, thinking I had not locked it up in the jewel case that was in the secret drawer of the time-lock safe behind a padlocked closet door.. And I know that in my waking hours should either sit upon it or wear it chained to me.

"That is why the women who actually do own solid gold bags make me so nervous. The minute you possess one t is the correct thing to act as though t were the mud under your feet or as though you were so sick of having them cluttering up your pathway that you simply couldn't stand it another minute! You can't belong to the clan at all unless you learn to scatter your bag around recklessly where people will find it and have heart disease for fear they won't get it back to you before you have called out the police reserves and set them on their trail.

"It is always the people who don't own them who do the worrying.

"Why, I once knew a man who used to run around with a girl who owned a solid gold bag, and she carried it upon every occasion, of course. She used to drop it between seats at the theater and remember she had done so when they were three-quarters of the way home.. And then the man would be obliged to spend the rest of the night chasing up janitors and box office men and routing them out of bed and groveling under parquet seats or traveling miles to the residence of the usher on that aisle and having a talk with him.

The bag always was found, of course, and the person finding it was only too tickled to get rid of it and perfectly delighted to pass it over to the harassed young man. But that did not help much at 4 or 5 or 6 o'clock in the morning, when he was due at the office again at 8. If this particular girl did not drop it at the theater she would leave it on the table at the cafe, and then, when she telephoned this unfortunate young man at 3 a. m. that she had just remembered doing so and would he very much mind seeing about it, he knew he was in for a near-riot with all the waiters at that restaurant and that he would never dare face the haughty head waiter in that particular place again, even if all the other restaurants burned up and he had to starve to death. Really, by the end of the winter he was the most popularly hated young man in town at restaurants and box offices.

"Once she lost it on the suburban train, discovering the fact when they arose to leave. She said, of course, he could easily find it. Shoving her into her front door the young man tore back to the station and caught the same train on its return trip to town and tackled the conductor, pop-eyed with anxiety and responsibility and hopelessness, 'Gold bag?' repeated the conductor casually. 'Sure-here it is! I picked it up right after you left!'

"But the unlooked-for luck was too much of a shock for the young man and he gurgled and fell all in a heap. When he had quite recovered from his illness he went away quickly and married a girl who had never in her life owned anything more elaborate than a \$3.98 bargain mesh bag that looked its price.

"There was another woman with a solid gold bag who spent her summer at the lake last year and who used to leave the bag on logs in the woods or on steps when she went calling on the setting of the sett cottagers. The children, finding it on the steps, would gleefully bury it in their sand forts and forget all about what they had done, and then for hours all the resorters and inn serv-

"When they had uprootetd all the shrubbery and devastated their homes and politely accused everybody else, and when nearly all the maids and brutal harsh unnecessary nurses had burst into tears and CARTER'S LITTLE thrown up their positions, somebody would accidentally kick over the sand fort and fall upon the bag with a yelp of joy: Then every one would mop her or his fevered brow and call for lemonade and fans and talk about how they hated that woman. She actually seemed to enjoy the commotion she caused every day or so and when she left they gave her a big party, they were so glad to be rid of her!

"Must you go?" ended the girl who loves to talk. "If so, would you mind taking along this gold bag I see you are leaving behind? I presume you forgot it!"

"Dear me!" said the bag's owner. "I believe I did forget it! Isn't that funny!"--Grit.

Hats Denoted Liberty.

In Rome slaves, when they received their liberty at their masters' hands, wore cone-shaped felt hats, which came to be the symbol of liberty. After the death of Nero the citizens of Rome wore pointed hats to show that they were relieved from the oppression of a tyrant. Later on, when the Netherlands threw off the Spanused to have?" asked Mr. Erastus Pink, ish yoke, they adopted a hat in the coat of arms of that nation.

JEANNETTE'S JIMMIE A "PLAIN" HUSBAND

By ELSIE GUNLER.

Jeannette, looking very mournful and wearing a long face, came and

threw herself on the grass at my "What's the matter now, child?" inquired, as I bit off the end of a thread that simply would not go

through the needle's eye. She did not answer me for a minute or two; just leaned her head against my knee and let her clasped

hands fall in her lap, and then: "Cousin Bess, do you think Jimmie is awfully plain?"

"Plain? Jimmie awfully plain? Why, what on earth do you mean?" That time the thread did go in the eye of my needle, but I stuck both needle and thread in my work, for I knew it was useless to try to sew when Jeannette wanted to talk to me aboue Jimmie. But this was the limit. Jimmie plain!

"No, indeed, I don't think him plain, Whatever made you ask such a foolish question, child? You are not getting tired of Jimmie, I hope!"

"Tired of Jimmie-oh, Cousin Bess. you know I'm not; I love him with all my heart, and, of course, I think him handsome; but Edith Samuels said she didn't see how I ever came to marry such a plain man.'

"Well, what did you tell her?" "I didn't answer. I was too angry just turned away from her and went over to Mrs. Simpson and helped her make tea; but I can't help wondering if all the girls think Jimmie is a 'plain' man.

"My darling little coz," and here leaned over and kissed her shining golden hair. "You know as well as I de that Jimmie could hardly be called a beauty. His nose is too long and too large for that. His ears do stand out a trifle too much and his mouth is perhaps a bit too wide for perfect symmetry; but-well, even if he is a bit plain in looks, what does it matter? Is he not a kind husband and a good man?"

"Yes, indeed, Cousin Bess; but sometimes I wish he was better look-

> California Woman's Good Shot. While walking through the woods near Cohasset, Cal., Mrs. W. H. Pills. bury of Chico shot a targe brown bear that measured six feet from tip to tip. Mr. and Mrs. Pillsbury were walking from their summer home near Cohasset to the "Promontory," a high point from which an excellent view of the whole valley can be had. Mrs. Pillsbury had a 30-30 carbine. Suddenly she saw a large bear coming down the hill about forty yards away. "It's a bear, shall I shoot it?" she shouted to her hsuband. Pillsbury answered "Where shall I shoot him?" "In the head," came the answer. With deliberate aim the woman fired, hitting the animal square in the right eye, killing him instantly.

The hide weighed 70 pounds and the weight of the carcass was estimated at three hundred pounds.

BRADLEY

To Open Kentucky Campaign at Lexington September 21st

Opening Gun to Be Fired and Old War Horse Right In It

Lexington Leader.

United States Senator Bradley has come to Kentucky to stump the state for Taft and Sherman and will formally open the Republican campaign in CHAS. D. PEARCE, Fayette county with a speech at the Lexington Opera-house on Saturday night, September 21st.

Committee is now trying to secure some other speaker of national prominence to appear here with Senator Bradley, and have sent telegrams to ex-Speaker Joseph Cannon, urging him to fill the date here with Senator Bradley. Speaker Cannon has not yet announced his decision, but it is quite likely that he will come, if speaking dates elsewhere do not interfere. If he cannot accept, the State Committee will secure another speaker

of note to speak with Senator Bradley. The local campaign committee has already engaged the Opera-house for the night of September 21st, and invitations have been extended to the Republican leaders in all surrounding towns to attend and bring with them as large delegations as possible. The plan is to make this rally the opening of the Republican campaign for all Central Kentuck and one of the reatest politica, demonstrations of he present camp

Sometimes even a pipe dream is a stem-

Mrs. P. P. Parker yesterday afternoon entertained about sixty of her lady friends at s delightful entertainment at her colonial mansion in West Third street. Six banded bridge was the feature and the gathering was one of the most hospitable and enjoyable of the summer season, although the heat was very trying to all in Maysville yesterday.

Gage marks 23 7 and rising.

Do you see how the square cross-rods at top of head and foot beautify this bed? Imagine this design with round tubing in those positions. Would not the result be ordinary" and monotonous?

posts with brass caps all combine to make this an unusually artistic bed. Moreover this bed is as good as it looks. Because it is made of drawn steel tubing, very light in weight—extremely strong.

It is just such details of clever and artistic

designing that have made our steel beds

so popular. And the very large corner

A child can move this bed with the greatest ease. Come in and see this bed. Then you will realize how good it is.
